Industrial Visit  Inbox

srivenkatesh@aaahas... 11:05 am

to me ▾

Hi adheena dev,

AAHA solutions is happy to Welcome your (CSE) Department students.

We would like to confirm your slot for 11th March 2023 (Saturday).

Timing will be at 11:30 A.M, Topic about Web Development.

Regards,

SRI VENKATESA PRASATH M (HR Manager)
AAHA SOLUTIONS

TO WHOMSOEVER IT MAY CONCERN

This is to certify that **29** students in the stream of **B. Tech Computer Science and Engineering 3rd year, 6th Semester** along with the faculties from **SREE NARAYANA GURUKULAM COLLEGE OF ENGINEERING**, Kolenchery, had visited our company 1 day Industrial visit program in **"Web and mobile app development"** trained by **AAHA Solutions**, Puducherry. On 11th March 2023, in connection with their Industrial visit during this session our Software Developers gave a knowledgeable session about Web and mobile app development.

I hope you this session gave a great wisdom and knowledge to you.
We wish his/her grant success in the future professional endeavors.

Regards,

M. Sri Venkatesa Prasath

INDUSTRIAL VISIT REPORT

CSE, R6A, SNGCE

On the 11th March 2023 a group of 6th semester CSE students from Sree Narayana Gurukulam College of Engineering embarked on a comprehensive industrial visit to Pondicherry, including a visit to AAHA Solutions, an IT company. Our journey commenced from the college at 5pm, and after an overnight journey, we reached the beautiful city of Pondicherry at 7am the following day.

After a brief rest and refreshment, at 9am, we had the unique opportunity to explore the Ausonille township, immersing ourselves in the local culture and lifestyle. This provided us with valuable insights into urban planning and community development.

The highlight of our visit was our stop at AAHA Solutions, which took place at 3pm. At AAHA Solutions, we were treated to an informative seminar on web development, a core area of expertise for the company. The seminar covered a wide range of topics, including front-end and back-end development, web technologies, user experience design, quality assurance, security, and content management systems. The question-and-answer session that followed allowed us to engage directly with industry professionals, enabling us to deepen our understanding of web development.

Post-seminar, we headed to Sandunes Paradise Beach at 5 pm, where we engaged in various water activities. This experience not only added a touch of adventure to our trip but also allowed us to appreciate the natural beauty of the Pondicherry coastline.

The following day, Sunday, the 12th of March 2023, was reserved for our visit to the historical town of Mahabalipuram. Our journey to Mahabalipuram commenced at 8am. During our visit, we explored various historical and cultural sites, including ancient temples, rock-cut sculptures, and UNESCO World Heritage monuments. These awe-inspiring structures narrated stories of India's rich history and architectural prowess.

Our return journey to the college took place on Monday, the 13th of March 2023. We left Mahabalipuram at 8pm and reached our college at 10am. This marked the conclusion of our insightful and memorable industrial visit, where we not only learned about web development from industry experts but also experienced the vibrant culture, history, and natural beauty of Pondicherry and Mahabalipuram. We extend our gratitude to AAHA Solutions and our college for facilitating this enriching educational journey. We would also like to express our heartfelt gratitude to our Head of the Department (HOD), teachers, and our esteemed Principal for their support and guidance during this educational journey.
