PROJECT EXPO

29 MAY 2023

As part of the Knowledge gathering from 2023, you will be invited to attend the event. Please bring in your
completed final year projects, proposals or any other research or software code.

Give your students the opportunity to present their projects.

Information
Project expo is scheduled on May 29th at 1.30 P.M. There is a cash prize awaiting for the best project.
The winning project will be carefully selected based on its outstanding merit, originality, and
aesthetic technical aspect.

We kindly request all project groups to come prepared with the project presentations,
accompanied by necessary diagrams neatly arranged on chart paper please ensure that your
project is ready for execution at the expo.

Those who participate in the Project Expo will be awarded additional marks in their sectional
assessments.

Texperia – Final year Project Expo

IEEE SB SNGCE had organized a project expo 'TEXPERIA' to ignite innovation and creativity and to showcase it to the future engineers. This dynamic event showcased the remarkable main projects of final year students who have dedicated their time and expertise to develop groundbreaking solutions and ideas. The participants were able to engage with the brilliant minds behind the projects as they present their work, sharing their insights, methodologies, and achievements. It provided the confidence for the participants to do such excellent projects in their own creativity. Over all the event was very successful.

DEPARTMENT OF MANAGEMENT STUDIES

EXHIBITION OF HANDICRAFTS FROM RECYCLED MATERIALS

The Exhibition of Handicrafts from Recycled Materials, organized by the Department of Management Studies, SNGCE was a captivating event held at PG Block on 15th January 2019. This exhibition aimed to showcase the students' creative skills and entrepreneurial spirit while promoting the importance of recycling and sustainable practices. The students demonstrated their ability to merge artistic expression with business acumen through their innovative use of recycled materials.

The Exhibition of Handicrafts from Recycled Materials by Management Students showcased the ingenuity and business acumen of the participating students. Through their creativity, innovation, and entrepreneurial initiatives, they demonstrated the potential for sustainable business practices and highlighted the importance of recycling. The exhibition provided a

platform for the students to showcase their talents and sparked conversations about the intersection of art, business, and environmental sustainability. The event served as an inspiration for attendees to support local sustainable businesses and consider their own role in promoting a greener future.
