

## MUTUAL NONDISCLOSURE AGREEMENT

THIS AGREEMENT is made effective as of the date of last signature below by and between **Tequipo Technolabs**, having its principal place of business at Technology Business Incubator, established by the SreeNarayanaGurukulam College of Engineering under the Gurukulam Research Park, having its office at SreeNarayanaGurukulam College of Engineering, Kadayiruppu, Kolenchery-682311 (“Second Party”) having its principal place of business at SreeNarayanaGurukulam College of Engineering, Kadayiruppu, Kolenchery-682311.

- 1) Purpose: The First Party and Second Party wish to explore a business possibility under which each may disclose its Confidential Information to the other.
- 2) Definition: “Confidential Information” means any information, technical data or know-how, including, but not limited to, that which relates to research, products, services, customers, markets, software, developments, inventions, processes, designs, drawings, engineering, marketing or finances, disclosed orally or in written or electronic form, and which is marked or identified by the disclosing party as “proprietary” or “confidential”. Confidential Information does not include information, technical data or know-how which (i) is in the possession of the receiving party at the time of disclosure as shown by the receiving party's files and records immediately prior to the time of disclosure; or (ii) prior or after the time of disclosure becomes part of the public knowledge or literature, not as a result of any inaction or action of the receiving party, (iii) is approved for release by the disclosing party, or (iv) is independently developed by the receiving party without the use of any Confidential Information of the other party.
- 3) Non-Disclosure of Confidential Information: The First Party and Second Party each agree not to use the Confidential Information disclosed to it by the other party for its own use or for any purpose except to carry out discussions concerning and the undertaking of any business relationship between the two. Neither will disclose the Confidential Information of the other to third parties or to the first party's employees except employees who are required to have the information in order to carry out the contemplated business. Each has had or will have employees to whom Confidential Information of the other is disclosed sign a Non-Disclosure Agreement in content substantially similar to this Agreement and will notify the other in writing of the names of the persons who have had access to Confidential Information of the other party. Each agrees that it will take all reasonable steps to protect the secrecy of and avoid disclosure or use of Confidential Information of the other in order to prevent it from falling into the public domain or the possession of unauthorized persons. Each agrees to notify the

other in writing of any misuse or misappropriation of Confidential Information of the other that may come to its attention.

- 4) Return of Materials: Any materials or documents which have been furnished by one party to the other will be promptly returned, accompanied by all copies of such documentation, after the business possibility has been rejected or concluded.
- 5) Intellectual Property Rights: Nothing in this Agreement is intended to grant any rights under any patent or copyright to either party, nor shall this Agreement grant either party any rights in or to the other party's Confidential Information, except the limited right to review such Confidential Information solely for the purposes of determining whether to enter into the proposed business relationship between the parties and carrying out such relationship. The disclosing party warrants that it has the right to disclose its Confidential Information to the receiving party. Otherwise, all information is provided "as is" and without any warranty, express, implied or otherwise, regarding its accuracy or performance.
- 6) Independent Development: Each disclosing party understands that the receiving party may currently or in the future be developing information internally, or receiving information from other parties that may be similar to the disclosing party's Confidential Information. Accordingly, nothing in this Agreement shall be construed as a representation or inference that the receiving party will not develop products, or have products developed for it, that compete with the products or systems contemplated by the disclosing party's confidential information.
- 7) Term: This Agreement may be terminated at all times with a 30 days prior written notice, provided however, that the confidentiality obligations herein shall terminate five (5) years following the date of disclosure.
- 8) Miscellaneous: This Agreement shall be binding upon and for the benefit of the undersigned parties, their successors and assigns, provided that Confidential Information may not be assigned without consent of the disclosing party. Failure to enforce any provision of this Agreement shall not constitute a waiver of any term hereof. This Agreement shall be governed by and construed and enforced in accordance with the laws of India.
- 9) Remedies: Each party agrees that its obligations hereunder are necessary and reasonable in order to protect the other party and the other party's business, and expressly agrees that monetary damages would be inadequate to compensate the other party for any breach of any covenant or agreement set forth herein. Accordingly, each party agrees and acknowledges that any such violation or threatened violation will cause irreparable injury to the other party and that, in addition to any other remedies that may be available, in law, at equity or otherwise, the other party shall be entitled to obtain injunction relief against the threatened breach of the Agreement or the continuation of any such breach, without the necessity of proving actual damages.

10) Notices: All notices shall be sent to either party at the address and to the contact person specified below, or such other address or contact as the respective party may specify from time to time in accordance with the provisions hereof.

Subject: permission to incubate a start up in G- TBI

Sir,

It is with great joy that we, a team of students from this esteemed institution are planning to launch a start-up venture. The venture, which we plan to name as “TEQUIPO TECHNOLABS” aims to provide outsourcing solutions to other businesses.

#### About the company

Tequipo Technolabs being founded by a team of engineers, many of us already come from engineering backgrounds and have in one way or another been a part of the manufacturing or service industry.

The main aim of the company is to undertake manufacturing of machines which are then sold under the actual company name. We help companies by functioning as their Original Equipment Manufacturers (OEM), thus the companies can completely utilize their energy for marketing the finished product.

In addition to this, the company will also undertake any outsourcing contracts. As an addition to functioning as OEM, we are also planning to provide R&D services to our clients for their existing technology or design new tech depending on our requirement.

#### Brief about the project

Tequipo Technolabs is being a founded as a company that undertakes manufacturing jobs outsourced from other companies. Another wing of the company undertakes Research & Development projects. This includes developing ideas of other companies and converting them into products and developing better technology or design for already existing products.

#### Take Road so far

Initially we developed sanitizer dispensers to tackle the pandemic Covid-19 situation. Our Wall mount model was appreciated by Lest Technologies, Noida. They have asked for prototypes based on their design specifications. Once they are approved, we will move into mass production of the same.

#### The Road ahead

We see our initial contract as an initial step into OEM market. Our plans are to undertake multiple OEM contacts from large companies and manufacture product to their requirements.

#### Incubation under G-TBI

As the team consists of students from this institution, Sree Narayana Gurukulam College of Engineering, Kadayiruppu, we considered it best to begin from the college itself. We plan to do our incubation under the G-TBI. As we require equipment to begin a small assembly line in the beginning, we conducted a survey in to the possibilities of doing the same inside the institution.

We have gone through the facilities in Mechanical and Electronics and Communication department and found that only final assembly can be done in the college. The cabinet for the machine have to be outsourced as we do not have the adequate machineries to do the same. At present, the equipment in the college can be used to prepare prototypes. However it cannot be used for bulk production. The R&D team has already begun work into designing other machines and will require extensive use of the Fab lab and CNC milling facilities.

#### Facilities available in house

In the survey that we have conducted of the resources available in college, we have realised that there are facilities in the college for preparation of prototypes, research and development of Mechanical, Electrical and software products. But for the existing contract that we have recieved, we require specialised equipment used in sheetmetal fabrication, these include CNC metal cutters, bending press and powder coating equipments.

Currently we have recieved a contract from Zest Technologies, Noida, to develop and manufacture Automatic Hand Sanitizer Dispenser. We will be manufacturing machines in bulk quantity for their requirements once the prototype is approved.
