Date	5/6/2020
Venue	Online
Resource person /Coordinator	Mrs.Beena T.Balan
Objective	To improve lives by helping communities to protect, conserve, and manage their natural resources.

The theme for World Environment Day 2020 is “Biodiversity” with the slogan “Time for Nature” — a call to action to combat the accelerating species loss and degradation of the natural world. Environment Day focus on its role in providing the essential infrastructure that supports life on Earth and human development. One million plant and animal species risk extinction, largely due to human activities. SNGCE celebrated World Environmental Day on 5th June 2020 through online mode. Staff and students planted trees as a part of “Plant a Tree Challenge” by the College. Tree plantation can be a contribution to the environment; we can plant more new trees near our home or in our garden .The event obliges everyone to consider newer approaches to minimize resource consumption, create greener models, become more sustainable, safeguard wild spaces, train and motivate youngsters to live in harmony with nature, and for them to become custodians of a green future

When everyone comes together to draw and decorate the pookkalam, cook the feast, to take part in the festive dances and games, all differences fade away. Unity is the pillar of progress and harmony in society. It is not enough if we are united on Onam. We need to be able to abide by such ideals throughout our live
